DMDC Reporting Websites and Data Holdings

Presented By Tim Powers

August 2012

Serving Those Who Serve Our Country

DMDC Data Holdings Overview

- DMDC Data Holdings provide data to support DoD policy and decision making and act as a single source for Total Force Readiness Reporting.
- Regular consumers of DMDC data include the Joint Staff, Military Personnel Policy, Reserve Affairs and Legislative Affairs.
- Data files and databases:
  - **Personnel** - *Active Duty, Guard/ Reserve, Civilian, Retired, etc.*
  - **Pay/Financial** - *Active Duty, Guard,/Reserve, Civilian, Retired, etc.*
  - **Contingency** - *GWOT Deployment/Activation, Desert Storm/Shield, Personnel Tempo, etc.*
  - **Training/Education** - *Training Courses, Individual Training History, Education Benefits, etc.*

DMDC Reporting Websites Overview

- DMDC currently maintains two data reporting websites (Until October 30, 2012).
  - **Information Delivery System** (IDS) provides a series of regularly updated standard reports on all aspects of DoD's military, civilian, and beneficiary populations.
  - **Data Request System** (DRS) allows DMDC customers to request individualized ad hoc and recurring reports that are not already available through IDS.
- **DMDC Reporting System** (DMDCRS) will integrate the functionality of IDS and DRS into a single website beginning October 30

Information Delivery System (IDS)

- Web-based application designed to provide aggregate-level reports by variables of interest such as Service Component, pay grade, occupation, assigned location, race, ethnicity, citizenship status, etc.
- IDS displays reports frequently requested by our customers and are updated, added and modified as needed.
- Reports are populated entirely from DMDC files, databases and the DMDC data warehouse.
- Reports can be downloaded to user's PC.

Information Delivery System (IDS)

Information Delivery System (IDS)

Guard & Reserve

The Guard and Reserve Module uses the Reserve Personnel Master Files and Transactions Files to produce a wide variety of reports. These reports show end-strength over time data by Reserve Component, Rank, DoD Primary Occupation, Length of Service, Age, Base, Continuation Rates, type of separation, and retention. The Fiscal Year Official Guard and Reserve Manpower Strengths and Statistics reports are also available from FY02. Please Note: Data contained within this application are sensitive and will need permission by DMDC for approval to be published outside the Department of Defense.

Note: FY 2010 and FY 2011 data has been temporarily removed from the Guard & Reserve Cognos gain cubes. Please refer to the Strength and Statistics PDF for this information until further notice.

Pay Plan Footnote:
E00 represents Unknown Enlisted pay grade.
O00 represents Unknown Officer pay grade.

Data Request System (DRS) Overview

- Used by DMDC customers to request individualized ad hoc and recurring reports that are not already available through IDS.
- Users can track status and history of previous and current requests
- Users can download results securely from the system once request is complete
- Efficient technology while preserving personal contact
- DMDC Point of Contact information
- 24 x 7 availability

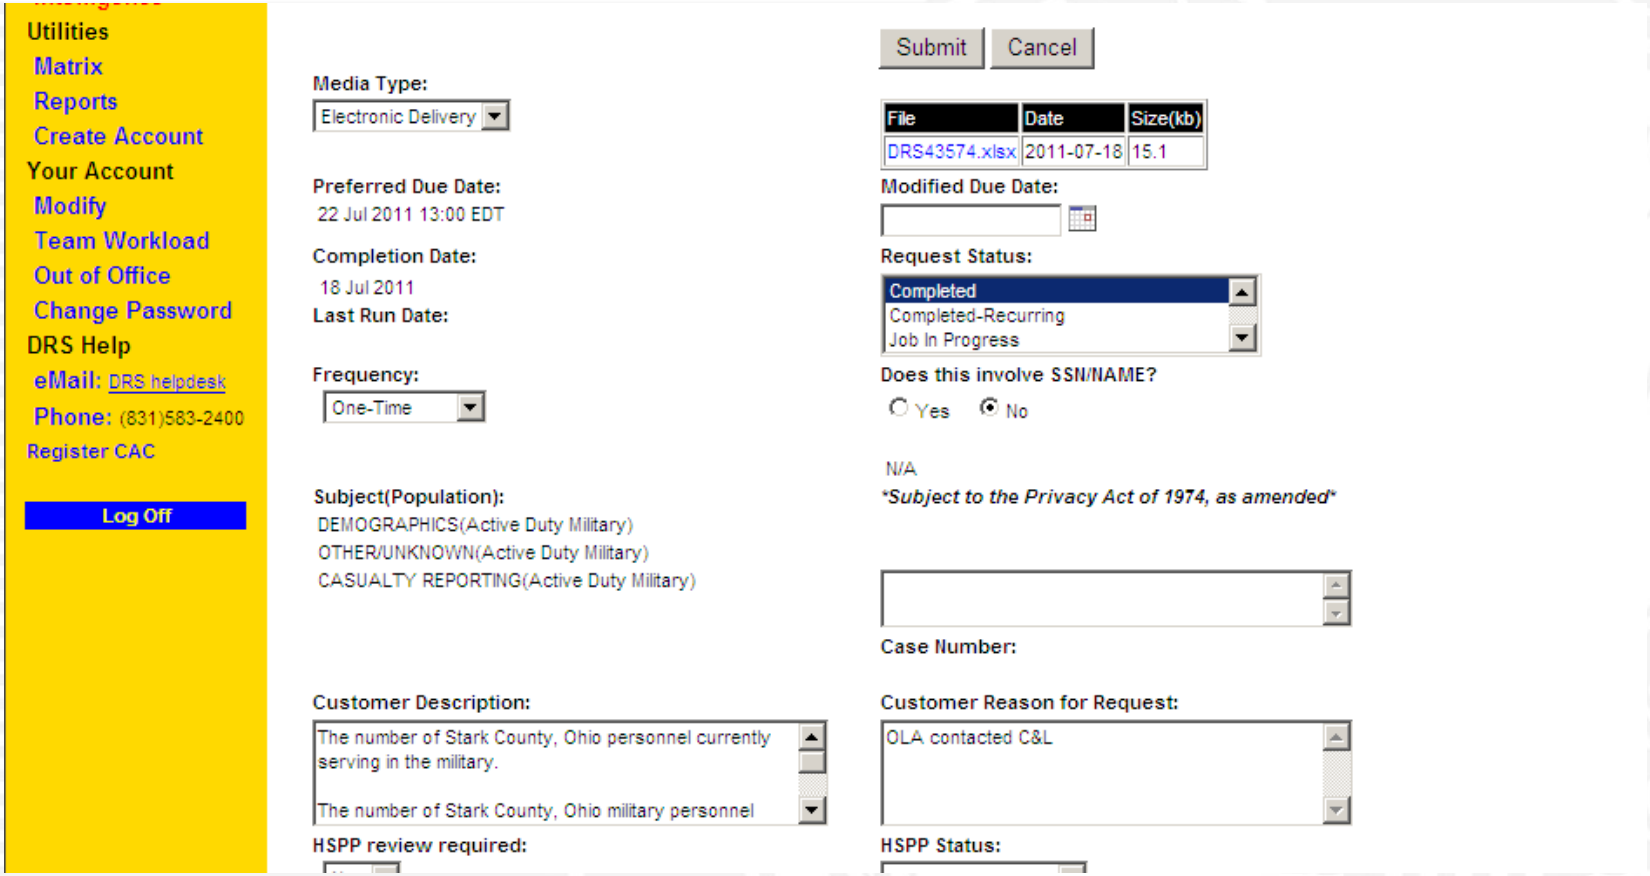
Data Request System (DRS) Request Tracking



DMDC Reporting System (DMDCRS)

- Coming October 30, 2012
- One stop shop for data request and delivery
  - Create ad hoc data requests
  - Track request status
  - View history of your requests
  - Self Service access to 100+ reports
  - Create and save your own reports
- DMDC Point of Contact information
- 24 x 7 availability

RECENT NEWS
Welcome to the DMDC Reporting System!
PURPOSE
The Defense Manpower Data Center's (DMDC) Reporting System (DRS) is a data reporting website that provides authorized users with the ability to view standard reports or to create custom data requests. The self-service Data within this system is based on summarized manpower and personnel information from DMDC databases and files. DRS is for the U.S. Government (military and civilian), U.S. Government contractors, and various other support organizations.
